Your itinerary

Ayder

Start your day with a pickup from your hotel and we drive along Turkey's Black Sea coast to Ayder, stopping enroute to visit large collection of regional Feretiko textile products. This lightweight local

fabric of Rize absorbs moisture easily, one of the best summer materials for clothing and home textile. Our second spot is Firtina Vadisi or Storm Valley – where you can partake in optional outdoor activites or relax at your own pace. The choice is yours.

Located 19 km/12 miles in the southeast of main town Camlihemsin and 167 km/104 miles/2.5 hrs drive in the southeast of Trabzon – Ayder, a Turkish alpine village
perched on the slopes of the Kackar Mountains in the city of Rize, known for its curative hot-springs, refreshing mountain air, high mountain pastures, evergreen trees and cascading streams of chill water. We will plenty of free time to explore and we enjoy a delicious lunch of Black Sea’s cuisine at a local restaurant.

On the way back to your hotel, we drive through the canyons and valleys and see fat dairy cattle munch lush grass and produce the country's best milk and butte, tea gardens and nearly two dozen well-preserved stone bridges dating back to the Ottoman era, gracefully arching over the Fırtına River.

Good to know

Comfortable walking shoes and weather-appropriate clothing are recommended. Optional outdoor activities are available at an additional cost, subject to weather conditions.
