Your itinerary

Antalya City Tour

Your guide will pick you up from your hotel and drive you to Duden Waterfalls and its surrounding gardens. A natural cave has formed behind the falls and it is possible to sit here and watch the cascades. There are restaurants, boardwalks and picnic tables in the gardens immediately surrounding the falls to help you make the most of this scenic spot.

Kaleici is the picturesque old quarter in the center of present day Antalya. With its narrow winding streets and historic wooden houses, bars, restaurants and Ottoman-style boutique hotels, it’s a lovely place to wander around. Imposing Hadrian’s Gate is a glorious example of Roman architecture and was constructed in 130 AD to commemorate Emperor Hadrian’s visit to Kaleici. Slowly make our way down to ancient harbour of Antalya. Board our gulet and escape into a dreamy day of sea and sun. This Panoramic Cruise along the shoreline, provides spectacular views of the Mediterranean Sea as it meets the pine forested mountain scenery.

Get the best view in all of Antalya from the Observation Deck as we climb up with Cable-car and admire the capital of Turkish Mediterranean and popular landmarks, such as Konyaalti Beach, dramatic backdrop of the Beydaglari Mountains and more.
