Your itinerary

Perge-Aspendos-Side

Meet your guide at your hotel for your day trip to the Perge, Aspendos, Side and Managat waterfalls. Hop into your air-conditioned minivan and begin by exploring the ancient Pamphylian city of Perge, where the majority of statues now in Antalya Museum were discovered. Learn about St. Paul's missionary journey to this Hittite settlement that dates back to 1500 BC. Then, see ornate marble reliefs in the theater and observe intricate designs at the stadium. Your guide will show you the elegant city gate, sure to impress any archaeology buffs with its two commanding towers, huge arcade, gymnasium, and public baths. Then, glimpse over the winding road, once decorated with mosaics and lined with vendors.

Continue to Aspendos and see one of Anatolia's most well maintained Roman theaters. Perhaps stop for lunch along the river and then continue to the stunning Manavgat Waterfalls. Next, drive to the charming retreat town of Side. Learn how Turkey's famous old pier town's name translates to pomegranate as you stroll the ancient ruins with your guide. Enjoy shops, a pair of sandy beaches, and plenty of shopping that makes this a popular destination. Then, follow your guide to historic monuments such as Temple of Apollo, Agora, a fountain, and Necropolis. Visit the museum, once Roman baths, and uncover some of Turkey's best archaeological treasures. Finally, spend some time on your own to further explore Side before heading back to your hotel where our tour ends.
