Your itinerary

Tandem Paragliding

Would you like to fly like birds in the skies unaided by anything but your own wings? Sorry, we cant promise that. But the closest feeling to actually experiencing this is paragliding and this we can do.

After an exciting drive up and through pine and cedar forests to the take-off points at 1900 m on Mt. Babadag 1965 m = 6000 ft., our all professional instructor-pilot team will get you ready for a fantastic flight and landing to Oludeniz with our state-of-the art equipments.

Lycian Coast at your feet, the vast Mediterranean in front bluest of the skies above and around, and the impressive Taurus mountains behind you altogether will reveal the divine secrets of our existence on this planet. Your scope to life and mother nature will deepen. Average duration mid-air is 40 minutes and you have single and tandem options.

Good to know
